About Me

I am a dedicated Flutter developer with experience in building responsive, cross-platform applications using Clean Architecture, Riverpod, and BLoC for state management. I focus on creating scalable and user-friendly apps, integrating Supabase for backend services. Passionate about clean code and continuous learning, I strive to develop high-quality solutions that solve real-world problems.

Experience

Freelance Flutter Developer

Self-employed

- **Developed and deployed several cross-platform mobile applications using Flutter, focusing on responsive UI and smooth user experience.**
- **Implemented Riverpod and BLoC for efficient state management in multiple projects.**
- **Integrated Supabase for real-time database management and user authentication.**
- **Collaborated with clients to understand project requirements and delivered custom solutions on time.**

Skills

- **Flutter Development:** Building cross-platform mobile applications with Flutter. Expertise in creating responsive, high-performance UIs.
- **State Management:** Proficient in Riverpod and BLoC for managing app state and ensuring scalability and maintainability.
- **Clean Architecture:** Strong understanding of Clean Architecture principles for creating well-structured, modular, and maintainable apps.
- **Version Control:** Proficient in Git for version control and collaboration on development projects.
- **Problem Solving:** Strong analytical and problem-solving skills, focusing on delivering optimal solutions.
